

Electrical Part for Forklifts

Forklift Electrical Parts - Forklifts as well as various lift trucks may have particular labels utilized in some hazardous locations. The label denotes that this certain model of lift truck meets the minimum standards of ANSI/UL 553 meant for electric lift trucks or ANSI/UL 558 used for internal combustion engine forklifts.

The use for labels for lift forklifts may be found in National Fire Protection Association NFPA 505 - Powered Industrial forklifts including: Maintenance and Operation, Type Designations, and Areas of Use. Consult your local insurance carrier and Fire Marshall for further info about the approved uses of industrial powered lift trucks in your application.

If the specific lift truck satisfies the outlined standards, labels can be put. A labeled lift truck will show the type of designation put on the nameplate and would have a correctly corresponding label put.
