

Spreader Bars for Forklift

Forklift Spreader Bars - Proudly operating ever since the year 1974, ELME Spreader AB is the largest independent spreader manufacturer around the globe. They have been a devoted producer of spreaders intended for different applications like for example the swap bodies, trailers and handling of containers.

Engineering is done in house by using all the most up-to-date CAD systems and FEM tools. The ELME business now employs more than one hundred twenty five employees. Their spreaders are supplied to reach stackers, straddle carriers, lift trucks, gantry, quayside and ship-to-shore cranes across the globe.

The product collection of ELME comprise lots of spreaders meant for several container and trailer handling operations. A few of their inventory consist of: Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes, Lift Trucks, Straddle Carriers and a huge range of attachments.

ELME manufacturing and production is done in a highly automated purpose built factory. In 2008, they made over 1150 spreaders by means of using top quality components to be able to guarantee reliability and high standards while offering reasonable prices. Major features of ELME include design simplicity, market response and inventive modular spreader concept.
